ABSOLUTE RETURN INVESTMENT STRATEGIES

## **SSARIS Hedge Fund Assets Continue to Grow Driven by Pension, Endowment & Index Business**

As it nears its third anniversary, SSARIS Advisors' fund raising effort has continued to gain momentum in the institutional marketplace.

SSARIS, founded in 2001, is majority owned by State Street Global Alliance and features a seasoned team of senior partners who have managed hedge funds and futures fund investments for over 20 years. "Our continued growth emphasizes the strength of combining the hedge fund investment expertise of the SSARIS team with the global reach and superior client service offered by SSgA," said Mark Rosenberg, Chairman and Chief Investment Officer of SSARIS.

The firm's philosophy of combining convergent and divergent strategies, along with providing transparency, uniquely positions SSARIS to function as a fiduciary for defined benefit investors worldwide. SSARIS is a fiduciary under the Department of Labor 1974 Act.

"Recent mandates from several pension and endowment clients in North America, Europe and Asia, as well as clients such as the MSCI Hedge Invest Index and Societe Generale's Lyxor platform, highlight our ability to attract and retain sophisticated institutional clients of all types", according to James Tomeo, Chief Operating Officer and Senior Portfolio Manager of SSARIS.

SSARIS is headquartered in Stamford, Connecticut and employs 21 professionals.
